

My name is Elahd Hain and for my Bar Mitzvah project, I am doing some recycling to take ink cartridges, cans and bottles out of landfills.

Did you know that over 350 million cartridges are thrown into landfills every year and each one takes more than 450 years to decompose?

You can help by bringing your used ink and toner cartridges to the Temple and putting them in the recycling box located on the table in the Atrium.

I will have them recycled and the money I earn will go to plant trees in Israel through the Jewish National Fund. Trees are like the lungs of the planet – they breathe in Carbon Dioxide and breathe out Oxygen. They also provide a habitat for birds and other wildlife. So by planting trees, we are completing the cycle of saving our landfills and replenishing our earth.

Thank you for your help with my project.
